

Website Hosting Service

OPTIMIZING REVENUE. REDUCING COSTS. MANAG-

Ideal Website Hosting

The AME Group's website hosting plans are designed to cater to small and medium businesses. We offer affordable, reliable web hosting with excellent uptime and expert support. Our servers use the latest hardware and are tuned specifically for serving web sites. They are also built with only Microsoft Hardware Compatibility List components, insuring stability and operational uptime.

Robust Administration Features

Every web hosting plan comes with a robust management console that allows users to do everything from manage hosting and domain features to setting permissions, tracking web traffic, integrating email into your domain.

Dynamic Web Content Hosting

AME's Webhosting Service offers the best in hosting dynamic web content. From FrontPage integration and management to PHP or ASP.NET and database-driven content, AME's hosting plans will have you covered.

A Web Hosting Service that meets your Business Needs

The AME Group's Web Hosting Service is a proven solution for small and medium businesses. It is a powerful, easy to use, and affordable solution to host your business website. Whether you need to host a brochure style site or a full-blown, database driven e-commerce site, AME's Webhosting Service can meet your needs.
