

SecureAI Onboarding Overview

Your 90-Day Journey to AI-Powered Productivity, Powered by HatzAI

Welcome to SecureAI

We're committed to ensuring every member of your team successfully adopts AI in a secure, practical way. Our structured 90-day onboarding program transforms AI from an abstract concept into daily productivity gains across your entire organization.

Why Our Approach Drives Adoption

Inclusive AI Access

We give access to everyone, not just power users, because the best use cases come from people closest to the work

Continuous Evolution

Structured engagement means regular strategy reviews, model updates, and proactive optimization as AI technology advances

Built for Teams

Pre-built templates, shared libraries, and visual builders make AI accessible to non-technical users

Secure by Design

SOC 2 Type 2 compliant with tenant isolation, admin controls, and audit trails

OUR COMMITMENT TO YOUR SUCCESS

- **Company-Wide Access:** Every employee receives immediate access to 50+ AI models in one secure platform
- **Hands-On Training:** Live sessions, certification courses, and practical exercises for all skill levels
- **Ongoing Support:** Biweekly office hours, AI champions, and dedicated assistance throughout your journey
- **Measurable Results:** Track adoption, usage, and ROI with transparent reporting and accountability

YOUR 90-DAY ONBOARDING JOURNEY

1

Month 1: Build Confidence & Security

Move from thinking about AI to using it confidently in a secure environment

- Platform setup with enterprise-grade security controls
- Live company-wide introduction to HatzAI
- 90-minute certification course for every employee
- Each team member creates their first AI tool or automation

2

Month 2: Build Real Solutions

Create custom AI automations that solve real business challenges

- AI Workshop Assistant guides your team in building automations
- Live hands-on sessions for workflow development
- Advanced AI course on maximizing your investment
- Teams start sharing and replicating successful use cases

3

Month 3: Scale & Optimize

Build a self-sustaining AI culture with measurable business impact

- Identify and empower internal AI Champions
- Company-wide sharing sessions for best use cases
- Usage analytics showing adoption rates and time savings
- Continuous optimization based on real performance data
